PRINCE GYEBI ADUSEI

gyebiofficial@gmail.com| +233552740209| http://www.linkedin.com/in/princegyebiadusei

PROFILE

Detail-oriented and performance-driven Computer Science graduate from KNUST with strong expertise in data analysis, software development, and digital design. Proficient in leveraging data-driven and analytical approaches to develop efficient, scalable solutions that address real-world challenges.

Skilled in data analysis tools, programming, and system development, with the ability to collect, interpret, and transform complex datasets into actionable insights that support decision-making and operational improvement. Demonstrates a solid understanding of software engineering principles, problem-solving, and process optimization through hands-on academic and project experience.

Passionate about sustainable innovation, continuous learning, and applying technology to drive efficiency and growth. Committed to contributing meaningfully within structured, performance-driven environments while delivering impactful solutions across diverse industries.

.

EDUCATION

BSc. Computer Science **Jan 2022- Sept 2025**
Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana
Academic Standing: Second Class Upper Division
Relevant Courses: Data Structures, Software Engineering, Database Concepts and its Application, Artificial Intelligence Fundamentals, Numerical and Linear Algebra, Data Communications, Networking, Computer Security.

Project: "Autism Detection System using M-Chat-R algorithm" *Supervised by Dr. Linda Banning*

WORK EXPERIENCE

Ghana Upstream Petroleum Chamber (GUPC), Accra, Ghana
IT Support **Nov 2025 - Present**

- Delivered IT support and technical troubleshooting for staff computers, software, and network systems, ensuring uninterrupted organizational operations and improved system reliability.
- Supported the management and maintenance of the Chamber's digital platforms, enhancing the organization's online visibility and communication effectiveness.
- Designed professional digital flyers, banners, and visual content for industry announcements, petroleum policy updates, and stakeholder events using graphic design tools.
- Conducted industry research on Ghana's upstream petroleum sector, including petroleum agreements, regulatory frameworks, and market developments.

Ministry of Finance and Economic Planning, Ghana
IT Intern **Sept 2024 – Dec 2024**

- Supported staff by troubleshooting and resolving IT-related system issues to ensure smooth daily operations.
- Assisted in the configuration, setup, and deployment of desktop and laptop systems for new and existing employees.
- Participated in diagnosing technical problems and implementing effective solutions to improve system performance and user experience.

GITPlus (Accra Digital Centre), Accra, Ghana
UI/UX Design Intern **Sept 2023 – Oct 2023**

- Gained hands-on experience in UI/UX design, utilizing **Figma** for prototyping, wireframing, and user interface development.
- Applied user-centered design principles to create intuitive and functional digital interfaces, improving usability and user experience.
- Enhanced my analytical and problem-solving skills by translating user requirements into design solutions and iterating based on feedback.

PROJECTS/RESEARCH EXPERIENCE

Final year project: "Developed a mobile application to screen early signs of Autism Spectrum Disorder" **Jan 2025 – Aug 2025**
Supervised by Dr. Linda Banning

- Integrated the Modified Checklist for Autism in Toddlers, Revised (M-CHAT-R) as a core screening tool to

support structured data collection and early identification of autism spectrum disorder (ASD) indicators.
- Designed and developed a user-friendly interface to enable parents, caregivers, and healthcare providers to efficiently conduct preliminary behavioral assessments.
- Applied data-driven approaches to translate behavioral inputs into meaningful insights, enhancing the accuracy and usability of the screening process.

"Developed a mobile food ordering application to enhance convenience in how students browse, select, and purchase meals"
Supervised by Dr. N. Ussiph

- Designed and implemented user-centric features to optimize accessibility, ordering processes, and overall user experience.
- Evaluated system performance and user interaction to support continuous improvement and effective digital food service delivery.

LEADERSHIP EXPERIENCE

Assistant School Prefect-RECT ACADEMY **Sep 2017 – June 2018**

- Presided over disciplinary hearings, safeguarding fair and transparent processes for all parties, including the facilitation of case presentations by accused students, witnesses, and complainants per institutional policies.

VOLUNTEER ACTIVITIES AND CERTIFICATION

- Completed Certified Training in Fibre Optics.
- Earned IBM AI Fundamentals certification, covering core AI concepts, machine learning basics, and ethical AI principles.
- Earned AWS Educate Introduction to Cloud 101 covering core cloud foundational concepts.
- As a council member of the Welfare Department, I helped to provide support to members of the Ghana National Association of Adventist Students, KNUST (GNAAS KNUST) and provide emotional assistance for members and take decisions for the welfare of members.

SKILLS AND INTERESTS

- **Technical Skills**: Microsoft Suite (Word, Excel and PowerPoint), React Native, Adobe Photoshop.
- **Soft Skills**: Task Prioritisation, Problem Solving, Communication and Teamwork.
